SAFETY DATA SHEET

1. Identification of substance
   * Product name: N-(5-Nitro-2-thiazolyl)-2-phenylquinoline-4-carboxamide
   * Chemical ID: SY130156
   * Manufacturer/Supplier:
     Accela ChemBio Inc. 9883 Pacific Heights Blvd, Suite H, San Diego CA 92121, USA;
     Shanghai Shaoyuan Co. Ltd. 222 Guangdan Road, 3F Bldg 21, Pudong New Area, Shanghai 201318, China;
   * Information Department: Health, Safety and Environmental Department
   * Emergency information: During normal hours the Health, Safety and Environmental Department. After normal hours call Chemtrec at (800) 424-9300.

2. Hazards identification
   * According to Regulation (EC) No 1272/2008 [EU-GHS/CLP]
     * Pictogram: No data known
     * Signal word: No data known
     * Hazard statement(s): No data known
     * Precautionary statement(s): No data known
     * Supplemental Hazard: no data known
   * According to EU Directives 67/548/EEC or 1999/45/EC
     * Hazard symbols: No data known
     * Risk phrases: No data known
     * Safety phrases: No data known

3. Composition/information on ingredients
   * Chemical characterization-Description(CAS#): N-(5-Nitro-2-thiazolyl)-2-phenylquinoline-4-carboxamide (CAS# 349400-40-4); ≥ 97%

4. First aid measures
   * Description of first aid measures
     * General information
       Immediately remove any clothing soiled by the product.
     * After inhalation
       Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.
     * After skin contact
       Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.
     * After eye contact
       Rinse opened eye for several minutes under running water. Then consult a doctor.
     * After swallowing
       Seek immediate medical advice.
   * Most important symptoms and effects, both acute and delayed
     no data available
   * Indication of any immediate medical attention and special treatment needed
     no data available

5. Fire fighting measures
   * Extinguishing media
     * Suitable extinguishing agents
       CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
   * Special hazards arising from the substance or mixture
     Carbon monoxide and carbon dioxide, Nitrogen oxides (NOx), Sulphur oxides (SOx).
* Advice for firefighters

6. Accidental release measures
* Personal precautions, protective equipment and emergency procedures
  Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation.
* Environmental precautions
  Do not allow material to be released to the environment without proper governmental permits.
* Methods and materials for containment and cleaning up
  Pick up and arrange disposal without creating dust. Keep in suitable, closed containers for disposal.
* Reference to other sections
  See Section 7 for information on safe handling
  See Section 8 for information on personal protection equipment.
  See Section 13 for disposal information.

7. Handling and storage
* Precautions for safe handling
  Avoid contact with skin and eyes. Avoid inhalation of vapour or mist.
  Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic charge. Ensure good ventilation at the workplace.
* Conditions for safe storage, including any incompatibilities
  Keep container tightly sealed. Store in a dry, cool and well-ventilated place.
  Recommended storage temperature: 4°C.
  Store under inert gas.
  Light sensitive
* Specific end use(s)
  no data available

8. Exposure controls/personal protection
* Additional information about design of technical systems:
  Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.
* Control parameters
  * Components with limit values that require monitoring at the workplace:
    The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
  * Additional information: no data known
* Exposure controls
* Personal protective equipment
* General protective and hygienic measures
  The usual precautionary measures for handling chemicals should be followed.
  Keep away from foodstuffs, beverages and feed.
  Remove all soiled and contaminated clothing immediately.
  Wash hands before breaks and at the end of work.
  Avoid contact with the eyes and skin.
* Breathing equipment: Use suitable respirator when high concentrations are present.
* Protection of hands: Impervious gloves
* Eye protection: Safety glasses
* Body protection: Protective work clothing.

9. Physical and chemical properties
* Information on basic physical and chemical properties
  * Form: Solid
  * Color: White to brown
  * Odor: Not determined
  * Melting point/Melting range(°C): Not determined
  * Boiling point/Boiling range(°C): Not determined
  * Sublimation temperature/start: Not determined
10. Stability and reactivity
   * Reactivity
     no data known
   * Chemical stability
     Stable under recommended storage conditions.
   * Possibility of hazardous reactions: No dangerous reactions known.
   * Conditions to avoid: no data known
   * Incompatible materials: no data known
   * Hazardous decomposition products
     Other decomposition products - no data known

11. Toxicological information
   * Information on toxicological effects
     * Acute toxicity: no data known
     * Primary irritant effect:
       * on the skin: maybe irritant to skin
       * on the eye: maybe irritating effect
     * Sensitization: No sensitizing effects known.
     * Subacute to chronic toxicity:
       Other than potential irritation (see above), no information on illness or injury to humans from acute or chronic exposure to this product is available.
     * Additional toxicological information:
       To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.
       No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.

12. Ecological information:
   * Toxicity: no data known
   * Persistence and degradability: no data known
   * Bioaccumulative potential: no data known
   * Mobility in soil: no data known
   * Results of PBT and vPvB assessment: no data known
   * Other adverse effects: no data known

13. Disposal considerations
   * Waste treatment methods
     * Product Recommendation
       Consult state, local or national regulations to ensure proper disposal.
     * Uncleaned packagings Recommendation:
       Disposal must be made according to official regulations.

14. Transport information
   * UN number
     DOT, ADR, IMDG, IATA: No data known
   * UN proper shipping name
     DOT, ADR, IMDG, IATA: No data known
   * Transport hazard class(es)
15. Regulatory information

* Safety, health and environmental regulations/legislation specific for the substance or mixture
  Adhere to all Federal, State and local regulations.
  Information about limitation of use: Use of this product is restricted to research and development only
  by technically qualified individuals.

* Chemical Safety Assessment
  For this product a chemical safety assessment was not carried out

16. Other information:

Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.

* Department issuing MSDS: Health, Safety and Environmental Department.
* Contact: Darrell R. Sanders

Notice to Reader

Accela ChemBio supplied chemicals are for research purposes only and are NOT intended for use as drug, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our MSDS sheets are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation which age and may become more dangerous or hazardous. It is the responsibility of the user to request updated MSDS sheets for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles and clothing, breathing equipment, facial mask, fume hood). For proper handling and disposal, always comply with federal, state, and local regulations.
